MatrixCare’s New Look

The upcoming R2 release will reveal the new look of MatrixCare, which has been designed to provide improved navigation and more intuitive workflow. Here’s a quick preview of what’s to come!

When you log after the next release, MatrixCare will look like this:

You will notice that we’ve cleaned up the heading and menu bar. The order of the menu bar is the same, and the content of each menu remains the same.

A new sticky banner appears at the top of every resident-focused page:

When you scroll down the page, the banner collapses to a condensed version, so that even when you’ve scrolled down a page, you are sure of which resident you are working with.

We are updating the icons so that they are more intuitive and universally recognized:

For more detail, go to the MatrixCare Documentation page (on the Facility menu in MatrixCare) and check out the “Sneak Peak: MatrixCare’s New Look” document.
