Comprehensive Financial Solutions
For CCRCs (Life Plan Communities)

Financial tools designed to streamline processes, minimize data entry and reduce errors while giving you full visibility with one simple, complete system designed for CCRCs.
A Robust and Complete Financial System, Designed for CCRCs

MatrixCare CCRC Solutions – Centrally manage your organization with accurate and complete records.

360 degree view of your organization

MatrixCare CCRC is unrivaled in its completeness of integration throughout the system. This allows for a comprehensive enterprise-wide solution in one efficient package. Automatically receive information from other disciplines in your community creating one master record for each of your employees and residents.

Employee information: attendance records, HR benefits, payroll deductions and Inservice activities.
Resident data: demographic, billing, philanthropic contributions and Electronic Health Record (EHR) data.

Streamline Processes

Our integrated system allows your staff to streamline processes by entering data once into the software.
For example, journal entries automatically flow from other areas of the system seamlessly – without the need for the error-ridden manual data entry. This is a core benefit for facilities of any size, from a single-site facility to large multi-site CCRCs.

MatrixCare offers multi-site communities easy access to each facility’s own financial records. Financial managers at the corporate offices can also review the financial records and have immediate drill-down access to details about each facility. Efficiently produce consolidated statements for regulatory, auditing and investment purposes.
Maximize Revenues
Processing claims and improving reimbursement is at the center of any LTC facility’s needs. Our solution offers a billing solution which is integrated with all areas of the software including the daily census as well as clinical assessments. The documentation capabilities of the system provide for better reimbursement rates which lead to optimizing revenue.

Increase Resident Satisfaction
MatrixCare CCRC can manage the complexities of your operations to meet residents’ needs allowing you to provide better service.

Meal plans can be accounted for in the meals processing solution and integrated through the Point of Sale (POS) system. POS can be used in your dining rooms, and also in your gift shops and cafes. All of the information flows back into the master resident record and allows you to track the use of meal plans as well as seamlessly bill for any additional items.

View a master schedule for residents; tracking their appointments, activities and events. The schedule assists staff in allocating resources to prepare for the various events.

Stay Up-to-Date in Compliance
MatrixCare is maintained to be current in all compliance issues at both the Federal and State level. The software is released approximately every six months with new regulatory requirements as well as extensive enhancements.

The Power of One

MatrixCare is the most comprehensive, fully-integrated software system designed specifically for the Long Term Care industry. MatrixCare CCRC not only includes clinical, but also financial and operational solutions. Unlike other software that “interfaces” to other systems, MatrixCare is a truly integrated solution.

Fully Compliant

MatrixCare is continually updated to be current in all compliance issues at both Federal and State levels. New software releases occur twice a year with new and updated regulatory requirements as well as extensive enhancements.

Expect Customer Support Excellence

Delivering an unsurpassed client experience is our goal. In fact, it is deeply rooted in the core values that govern our culture, our brand and our business strategies. From software development to training and support, our focus is to provide our clients with the tools needed to deliver a superb resident experience, and to succeed in today’s world of long term care.

About MatrixCare

MatrixCare solutions have powered the long-term care continuum for over 30 years. MatrixCare is the largest LTPAC technology provider in the U.S. and the first to offer a true full spectrum solution. Used in more than 11,000 facility-based care settings and 1,400 home care and home health agencies, MatrixCare’s solutions help skilled nursing and senior living providers, continuing care retirement communities, and home health organizations to prosper as we migrate to a fee-for-value healthcare system. Through our common care coordination platform, we are also able to offer the industry’s first solution for helping the emerging set of conveners and diversified LTPAC operators to deliver superior care and better outcomes across the full spectrum of care.
