

LabSoft Integration

USING MATRIXCARE'S LABSOFT INTEGRATION, YOU ARE CONNECTED TO HUNDREDS OF LAB AND RADIOLOGY SERVICES NATIONWIDE.

Lab test orders are placed in MatrixCare and are electronically transmitted directly to your lab of choice. When testing is completed, results are digitally transmitted back to MatrixCare for review, acceptance and storage in the resident's chart. This fully bi-directional communication with clinical labs and image centers, provides convenience, enhances efficiencies, and results in better resident care delivery and outcomes.

LabSoft Integration

IMPROVE QUALITY OF RESIDENT CARE

Immediate access to lab results speeds up treatment options which potentially reduces the need for a hospital transfer or readmission. The quick access to imaging can reduce time in planning treatment for injury or illness. Out of range or abnormal results are highlighted or flagged in order to decrease response time by the care team for intervention.

INCREASE EFFICIENCIES

Inefficient paper based processes are eliminated with LabSoft integration. You no longer have to spend time in drawn out paper and fax processes where order tracking and results review require many steps. In addition to saving time, you also save money by reducing the amount of paper being used. Convenient and swift workflow increases efficiencies resulting in lower labor expenses.

IMPROVE DATA INTEGRITY

Electronic order entry eliminates errors related to illegible handwriting decreasing the risk for audits and litigation with real-time and accurate charting. Available simple viewing of test and sample details, such as; required sample types, collection containers, minimum collection volumes, transport methods and temperatures for fewer sample rejections, greater testing accuracy, and better resident safety and care.

INCREASE REVENUE

With higher volumes of lab testing, results reviewing and lab test billing, not only will you save time and costs, you will increase your revenue.

About MatrixCare

MatrixCare solutions have powered the long-term care continuum for over 30 years. MatrixCare is the largest LTPAC technology provider in the U.S. and the first to offer a true full spectrum solution. Used in more than 11,000 facility-based care settings and 1,400 home care and home health agencies, MatrixCare's solutions help skilled nursing and senior living providers, continuing care retirement communities, and home health organizations to prosper as we migrate to a fee-for-value healthcare system. Through our common care coordination platform, we are also able to offer the industry's first solution for helping the emerging set of conveners and diversified LTPAC operators to deliver superior care and better outcomes across the full spectrum of care.
