

Analytics Suite

MyAnalytics
MyData

Built on
Microsoft Azure

Superior care and better outcomes don't happen by accident. To help you more effectively manage and grow your business, MatrixCare offers a powerful and flexible suite of analytics products. You will benefit from our flexible solution that allows you to:

- Gain insights from rich business intelligence
- Monitor relevant data through crisp, informative dashboards or by building your own custom reports
- Better leverage your information technology resources and software investments
- Combine data from MatrixCare into existing data warehouses
- Deploy dashboards and reports on any mobile device, for informed decision-making on the fly

You have the flexibility to choose what works best for you. Our analytics solution provides you with a base set of content that you can expand to meet your organization's needs. Both offer you actionable information to meet your unique needs and help you succeed.

An Easy-to-Use, Configurable Solution

Analytics Suite

MatrixCare MyAnalytics

If you prefer to spend more time analyzing information than collecting and manipulating data, you'll love MatrixCare MyAnalytics.

With MatrixCare MyAnalytics, you receive the information you need to effectively manage your business and identify important trends at a glance, including:

- Prebuilt visualizations and reports that span the key areas of your business – from census and financial accounts receivable to readmissions and quality measures (where applicable)
- Market-leading business intelligence “app” built on Microsoft® Azure and Power BI
- Self-service report-writing options using Microsoft® Power BI with our tabular data model

In addition to a library of available content, you can tailor the information to meet your needs by creating custom dashboards, modifying prebuilt content or generating self-service reports. And, unlike a third-party tool purchased independently, MyAnalytics comes with comprehensive support from MatrixCare to ensure you derive the full value of our software.

MatrixCare MyData

For organizations with existing investments in people, software and intellectual property, we offer MatrixCare MyData.

With MatrixCare MyData, you have access to:

- Replicated copies of key source system tables (views) with updates in near real-time
- Secure access to MatrixCare data
- Help documentation for source system tables that includes metadata and table relationships

About MatrixCare

MatrixCare solutions have powered the long-term care continuum for over 30 years. MatrixCare is the largest LTPAC technology provider in the US and the first to offer a true full-spectrum solution. Used in more than 12,000 facility-based care settings and 2,000 home care and home health agency locations, MatrixCare's solutions help skilled nursing and senior living providers, life plan communities (CCRCs), and home health organizations to prosper as we migrate to a fee-for-value healthcare system. Visit www.matrixcare.com for more information.
