![MatrixCare — Integrated Care. Better Outcomes.]

CareAssist

POINT OF CARE AND eMAR IN A SINGLE EASY-TO-USE APPLICATION

The quality of care drives the quality of life for long-term care residents. MatrixCare CareAssist helps you consistently deliver on this by:

- Saving data entry hours for staff

- Providing safer medication management for residents — reducing errors by up to 70%

- Improving staff, resident and family satisfaction

CareAssist

MatrixCare CareAssist was designed with the needs and workflows of post-acute care facilities in mind. To meet your wide spectrum of order management needs, we offer manual order entry, traditional e-prescribing and pharmacy centric order entry.

With real-time resident and service plan information at their fingertips, users can focus their time and attention on the resident while recording accurate and reliable documentation.

When a service or activity is selected, the user sees notes specific to residents' individual preferences and needs (Figure 1).
Users — from nurses and activity therapists to other caregivers — can also document notes as well as refusals or exceptions to care.

MatrixCare CareAssist also tracks medication preparation, whether the medication was taken or refused, and PRN administration.

- Barcode scanning allows for safe and efficient medication passes, checking against the five rights of medication administration.

- Electronic controlled substance tracking ensures accurate documentation, including shift changes and automatic deductions from inventory.

- Blind controlled substance tracking also ensures that medication counts are done according to protocol.

If a medication is overdue, MatrixCare CareAssist notifies users, aiding in safer medication management (Figure 2).

One convenient login to capture care, verify orders and administer medications. It's that easy.

About MatrixCare

MatrixCare solutions have powered the long term care continuum for over 30 years. MatrixCare is the largest LTPAC technology provider in the US and the first to offer a true full-spectrum solution. Used in more than 12,000 facility-based care settings and 2,000 home care and home health agency locations, MatrixCare's solutions help skilled nursing and senior living providers, life plan communities (CCRCs), and home health organizations to prosper as we migrate to a fee- for-value healthcare system. Visit www.matrixcare.com and www.carecommunity.com for more information.
