

Point of Sale

INCREASED ROI

Save hours of data entry every month through increased efficiency. Our solution will accumulate all transactions charges for each resident during the month and will be sent to your billing application.

Single set of resident profiles eliminates the need to enter information multiple times.

Ability to capture ancillary charges for services and items increasing the community's ability to generate additional sources of revenue as well as the opportunity of additional offerings to the communities residents and guests.

Point of Sale

Flexibility and Versatility

Our Point of Sale allows you design and configure a solution that best fits your needs today and in the future.

Capture charges by resident and combine them into the proper billing function. Our application can handle multiple meal plans, flex-spending, declining dollars, meal counts, etc.

Add multiple plans for recurring charges for services like housekeeping, pet sitting and dry cleaning among others.

With multiple operating uses you can use the system throughout your entire communities offerings such as restaurants, quick-service restaurants, table side service, beauty salons, cafes and gift shops.

Menu management is easy. Menu changes can be made by shift, daily weekly, monthly or seasonally. There is no limit to the number of menu times.

Multiple payment options:

Credit cards, Checks, Department Charges, Gift Cards, Coupons, Direct Bill to Residents, Meal Plans, Cash

Increased customer satisfaction

Reduce errors and increase customer service.

Residents can easily view real time balances of their meal plan with self-serve kiosks, freeing staff to better serve residents.

Order accuracy and efficiency increased with easy to read kitchen tickets.

Improved customer service with seating assignments that show resident's name, photo and seat location at the table for accurate food delivery.

Special dietary needs and food allergies printable for each resident on kitchen tickets.

Residents and employees can use multiple ways for identification such as card swipe, FOB reader, PIN or resident and employee number.
