

SKILLED NURSING FACILITY

## Improve patient care and your bottom line with data-driven insights.

As the skilled nursing industry continues to evolve, your organization must explore new strategies and tools to attract and retain staff, increase occupancy, manage operating expenses, and stay competitive.

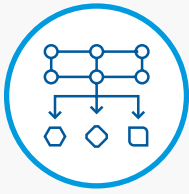

# Capture crucial data to improve efficiency and clinical outcomes.

Get the data you need to improve business margins, patient safety, and clinical outcomes using our skilled nursing EHR. At every step—from referrals and patient intake to resident care, revenue cycle management, and analytics—our cloud-based software can create efficiencies throughout your organization.

# What you can expect from MatrixCare

Configurable, efficient workflows that give clinicians more time to spend with residents.

Regulatory compliance that supports better outcomes and reimbursement.

Built-in security protocols and partner integrations that offer exceptional data integrity.

Real-time electronic documentation, alerts, and notifications to proactively manage and audit resident care and comply with relevant regulations.

Pre-built, intuitive dashboards and reports to leverage financial, clinical, and operational information that supports strategic, data-driven decisions.

# Data-driven insights let you confidently deliver proactive care.

*Clinical Advanced Insight's at-a-glance dashboards have become a critical component of our staff's daily routines.*

**Annette Salisbury**, senior vice president of clinical services, PruittHealth.

The new Clinical Advanced Insights is an EHR-embedded machine learning tool that alerts staff to fall risks and sudden changes in resident conditions. Intelligent algorithms, combined with time-tested clinical insights, show you which residents need attention, so you can:

- ✓ Predict where you'll need resources next
- ✓ Focus providers' time on preventive care
- ✓ Take proactive control of costs and risks

## Optional modules

Tools and technology that drive efficiencies.

Gain insights into every aspect of your business using a suite of tools that work seamlessly with our EHR. You can connect and share data to reduce the number of vendors, maintain a single source of data, and deliver more efficient, high-quality care.

### CareCommunity Connect

Easily share and exchange clinical documents with external providers to ease transitions of care, increase resident safety, and save time.

---

*Using CareCommunity means less risk of error during admission and more complete, current, timely information.*

**Jeanne Gerstenkorn**, senior vice president health & wellness, Presbyterian Manors of Mid America

---

### CareCommunity Engage

Residents can securely share their health information with family, caregivers, and external providers in real time to improve communication, and coordinate more effectively to improve care quality.

### Enterprise Financials

Get an up-to-date view of your business performance with this comprehensive, integrated financial management tool. Efficiently manage all accounting and operational needs in a single system that you can configure based on care setting, size, and complexity.

## MealTracker

Automate dining functions to ensure meal accuracy, reduce waste, stay within budget, and improve staff productivity—all while increasing resident satisfaction. Accommodate individual preferences, monitor nutrition, and incorporate clinical data from the EHR to meet each resident's nutritional needs.

## TimeTracker

Simplify workforce management with streamlined scheduling, real-time attendance tracking, and automated absence administration. Our cloud-based solution helps you comply with organizational, federal, state, and local labor requirements while avoiding gaps in care.

---

*I have been working with MealTracker for many years. The program does everything I need it to do AND it can do more if I ever need it to. MatrixCare's support has been very good: professional and friendly.*

**Bernadette Townsend**, certified dietary manager,  
The Arbors

---

## ReferralConnect

Designed specifically for long-term and post-acute care providers, ReferralConnect gives you the tools and information you need to discover hidden referral sources, focus your marketing efforts, and build sustainable relationships that attract even more referrals.

## The MatrixCare difference

Get expert support to thrive in a changing environment.

### Stay on top of regulatory changes

MatrixCare software updates regulations automatically, so you can save time and prepare for upcoming regulatory changes. Our updates are based on more than 30 years of industry experience, as well as many industry association relationships and regular input from providers.

### Implementation grounded in experience

Even the best technology is only helpful if you know how to use it. That's why MatrixCare provides implementation support to get staff up to speed and using the technology with confidence. In fact, we've migrated thousands of customers to MatrixCare from their existing systems, maintaining interoperability with third-party ancillary systems in the process. Whatever your transition needs, our best practices ensure your success.

---

*With MatrixCare, the visuals built into the analytics make it easy to understand where the problem is or where the trend is going.*

**Jesse Marinelli**, chief transformation officer,  
PruittHealth

---

### Count on our ongoing customer support

Our customer support team can answer questions about your software or recommend best practices to improve your workflows. After implementation, you'll have ongoing access to optimization assessments, complementary educational webinars, and user conferences.

## We innovate so you can do good and do well.

For 30 years, we've been helping care providers achieve better outcomes. And in today's changing industry, our expertise matters more than ever. We're the only EHR provider in the industry that focuses on the entire care continuum to support exceptional care. As the industry shifts to value-based care, we remain focused on supporting providers and delivering quality outcomes for your residents.

With the backing of our parent company, ResMed, we're committed to investing in technology that helps providers improve care throughout a resident's healthcare journey.
