

CERTIFIED ELECTRONIC HEALTH RECORD

Certified electronic health record for Life Plan Communities

Specifically designed for CCRCs, the fully certified EHR solution connects staff, residents and management with up-to-the-moment information across the entire continuum of care.

Work smarter, provide better care, optimize reimbursements

MatrixCare offers a more effective and efficient way for clinical staff to manage patient care.

Easy to use

Connect to the latest information across all disciplines and departments in a single on-line resident profile. Toggling among all clinical areas in a resident's SmartChart is quick and efficient without navigating menus. Documentation of point of care items like vitals, ADLs and care plans is simple using touch screen tablets or iPads.

Produce accurate and consistent documentation

Create and maintain comprehensive assessments. Our solution provides a library of pre-built assessments, and any number of additional user-defined assessments can be designed to fit the needs of your individual facility. You can even set your own scores for outcomes benchmarks.

Improve outcomes and reduce re-admissions

View data collected during everyday processes in a format that is easy to understand. Meaningful reporting of real-time data helps identify patterns and trends supporting proactive clinical decision making.

Provide continuity of care

Establish facility-defined workflow processes. Establish process tasks based on your facility's policies and procedures, and best clinical practices, and set related alerts to be sent to relevant staff members.

Improve efficiency

Save time with a fully integrated electronic health record. Information is automatically updated across the system in accordance with sound clinical practices. Information flows systematically among the MDS, care plans, point of care, eMAR / eTAR, ID notes and the SmartChart, eliminating the need for time consuming information searches. Visualize and manage daily tasks in one screen.

Get paid for the care you provide

Optimize billing and reimbursement potential. MatrixCare CCRC intuitive and comprehensive MDS is auto-populated from point of care and other areas of the software providing more accurate coding. RUG scores can be re-calculated at anytime to determine what your ARD should be. All information from the MDS is integrated into the billing module for ease of processing.

CMS 672 and 802 reports are instantly available based on the latest assessments, and OBRA and PPS assessments are automatically scheduled.

Raise the bar

Position your organization as a leader in resident care. Be ready for the world of changing reimbursement. With MatrixCare, the first fully certified EHR, you can be sure you'll have the tools to consistently demonstrate positive outcomes, and exchange information with hospitals, HIE, RHIO and other providers — all key to success in today's long-term care industry.

The CCHIT certification program is independently developed, and includes a rigorous inspection of an EHR's integrated functionality, interoperability and security.

MatrixCare EHR solution

- Alerts and messaging
- Care plans / restorative nursing
- MDS 3.0 plus
- Medication database full (GSM)
- Medication database lite (GSM)
- Medical records
- Point of care
- User defined EMR
- Workflow management

The bottom line

With MatrixCare CCRC, clinical staff has more time to spend with residents, resulting in better and care better outcomes. Accuracy and consistency of documentation, combined with comprehensive medical profiles and systematic flow of information throughout the software, will optimize reimbursements and patient billing.

CERTIFIED ELECTRONIC HEALTH RECORD

1

The power of one

MatrixCare CCRC is the most comprehensive, fully-integrated software system designed specifically for the CCRCs. MatrixCare CCRC includes clinical, financial and operational solutions. Unlike other software that “interfaces” to other systems, MatrixCare is a truly integrated solution.

Fully compliant

MatrixCare is continually updated to be current in all compliance issues at both federal and state levels. New software releases occur twice a year with updated regulatory requirements as well as extensive enhancements.

Expect customer support excellence

Delivering an unsurpassed client experience is our goal. In fact, it is deeply rooted in the core values that govern our culture, our brand and our business strategies. From software development to training and support, our focus is to provide you the tools you need to deliver a superb resident experience, and to succeed in today’s world of long-term care.
