

HOME CARE MYDATA

Owning and managing your data: your competitive advantage.

Increasing efficiencies, optimizing operations and improving care coordination doesn't happen by accident. With MatrixCare's powerful data management solution, you have the tools to grow your home care business.

HOME CARE MYDATA

For organizations with existing investments in people, software and intellectual property.

- Create insights that extend beyond your system reports
- Monitor relevant data by building your own custom reports
- Fully leverage your information technology resources and software investments
- Combine data from MatrixCare into existing data warehouses
- Deploy dashboards and reports on any mobile device, for informed decision-making on the fly using the BI software that works best in your environment

With MatrixCare MyData for Home Care, you have:

- Direct data access to replicated tables in near real-time (NRT)
- High-value source system tables for reporting use cases
- Personalized file extracts for data mashups and other applications
- Corporate-level reporting across all offices
- Interoperability with your own licensed analytics toolset
- No interruption to your MatrixCare source system performance
- Visibility into trending operational situations that impact financial performance

Get more from your data and leverage it online to make strategic, data-driven decisions securely—anytime and anywhere.

There are so many things we can do with MyData. We're using it to drive functionality, develop KPIs and set up workflows within the company. And that really puts the power in our hands.

Luka Bajic

Interim CFO, Lifematters

Before MyData, we ran several individual reports, and we used to do manual calculations to determine payroll and overtime billing. It took multiple hours. Now, with MyData, it takes five minutes.

Shannon Lamoreaux

Director of Quality Assurance, Lifematters
