

TRAINING ASSURANCE PLUS

While it's important to invest in tools, it's also equally important to invest in the people who use them.

And when the tools need frequent updates to reflect industry and regulatory changes, keeping users well trained is top priority.

MatrixCare's Training Assurance Plus can help. With individualized options for continued training and consulting, you'll have the guidance and education needed to stay on top of all the changes. Training hours can be purchased in bundles and used for optimizing operations, release and regulatory readiness, training for new staff or leadership, and developing expertise in key roles (such as your MatrixCare Subject Matter Expert).

And to make it even easier, we offer training at your site or virtually—whichever works best for you. Either way, you and your staff will have personalized attention from MatrixCare trainers.

Contact your MatrixCare account manager to find out how Training Assurance Plus can help you make the most out of your investment.

Overview

Training Assurance Plus gives you access to training and consulting so you can be sure your staff has the education they need to stay up-to-date with regulatory, industry, and product changes. Flexible options let you choose the training that best meets your needs, including:

- **Annual optimization:** an assessment to see how your staff is using MatrixCare software. We'll evaluate areas of strength and show you how to take full advantage of relevant features and functions.
- **Onboarding new staff:** make sure new hires gain the knowledge they need quickly.
- **Quarterly software releases:** keep staff up-to-date when new functionality is added.
- **Industry updates:** monitor ongoing changes in long-term care.

Training Assurance Plus can help you make the most of your software investment:

- **Drive and improve operational efficiency.**
Our customized, annual audits reveal actionable insights and a recommended course of action for optimizing ROI.
- **Simplify and enhance new hire training.**
Our customized training plans can help you maintain a consistent level of staff expertise, where and when you need it.
- **Stay ahead of the technology curve.**
Our advanced training and consulting experts are ready to help your staff take advantage of new features and quarterly releases.
- **Tailor your training to your specific needs.**
Choose the Training Assurance Plus package that works best for you and have it delivered on-site or remotely.
- **Avoid intermittent and unplanned expenses.**
Take advantage of budget sensitive and cost-effective rates for training and consulting without the guesswork.
