MatrixCare®
by **ResMed**

Maximize efficiency and revenue with the new MatrixCare Point of Sale

MatrixCare Point of Sale simplifies payment processing, enhances resident engagement, and provides robust reporting tools for unparalleled operational insights. By integrating seamlessly with your existing EHR, it streamlines both front and back-office operations, ensuring a smoother, more efficient workflow.

Without MatrixCare Point of Sale

- ⊗ Inefficient record keeping
- ⊗ Delayed payment processing
- ⊗ Limited payment methods
- ⊗ Increased administrative burden
- ⊗ Lack of real-time financial oversight

With MatrixCare Point of Sale

- ✓ Improved community operations
- ✓ Enhanced security and fraud protection
- ✓ Increased staff and resident satisfaction
- ✓ Rapid and reliable cash flow
- ✓ Convenience and control for residents

How it works

> Automated payment processing captures missed revenue, delivers rich analytics and data, and keeps staff engaged.

> Linux OS and commercial-grade hardware provide safety, stability, and the security of a low-maintenance operating system.

> Built-in features makes it easy to use, easy to train on, and help personalize resident experiences.

> Digital ordering, resident portal, analytic modules, and integrations like MealTracker help ensure a seamlessly connected community experience.

Paperless payments with MatrixCare Point of Sale can provide the following benefits*

Increase revenue by **up to 8%** on average

Reduce operating costs by **up to 57%**

Receive funds **within 1-3 days** on average

Lower credit/debit card fraud by **up to 53%**
