EDAN

Want to avoid the *"Information Islands"* caused by a multitude of devices in your facilities?

Still enduring the *"Massive Manual Work"* resulting from devices not connected to EHR/EMR systems?

Still dealing with *"Potential Compliance Issues and Disputes"* due to the lack of consistent Electronic Medical Records?

Embrace the future with Edan's healthcare products powered by Allink Integration Solutions!

Be part of a transformative reduction in manual work and avoid potential costly human mistakes!

Allink Integration Solutions:

Assisted & Independent Living Communities `Make Spot-check Easier`

The benefit of using Internet-enabled iM3s

- **Elevate Nursing Precision:**
  Empowering nurses to capture optimal patient data for seamless integration into the PointClickCare or other alternative EMR.
- **Experience the Future of EMR Customization:**
  Tailor your parameters, from blood sugar to pain level and others, with easy barcode scanning support!
- **Say Goodbye to Manual Data Entry Hassles:**
  Let automation handle the work for your staff! Improve patient safety while enhancing customer satisfaction!

Skilled Nursing Facilities (SNFs) `Make Nursing More Flexible (Powered by JuBo)`

The benefit of using iM3 with intelligent trolly

- **Effortless Access:**
  Ditch the paper and tablet! Automatically pull up resident profiles with a touch.
- **Instant Updates:**
  Customize vital values or notes and save them directly to your EMR on the go.
- **Flexible Nursing Workflow:**
  Instead of being tethered to a stationary computer, you can document patient information, administer medications, and monitor vital signs with intelligent trolly at the same time.

Long-term Acute Care `Make Patient Monitoring Wiser`

The benefit of using a central patient monitoring system

- **Centralized real-time monitoring and "See-it-Any-where, Anytime":**
  Combine data integrations with proprietary selective devices, syncing data throughout the connected terminals, empowering easy data access across your setups.
- **Streamlined Registration:**
  Automate patient registration and effortlessly sync reports to your current EMR.
- **Total Integration:**
  Dive into a fully automated worklist, seamlessly compatible with EMR systems…
