

The MatrixCare difference

An all-in-one EHR solution that redefines expectations

MatrixCare offers more than EHR software. We provide robust, integrated technology solutions tailored to meet clinical and back-office needs, supported by an experienced team committed to innovation and exceptional service. Backed by our parent company ResMed, a global leader in healthcare technology, MatrixCare brings a unique blend of expertise and innovation to the forefront of the industry.

The MatrixCare difference

- > Innovation and expertise
- > Healthcare continuum
- > Customer-centric approach
- > ResMed relationship
- > Purpose-built solutions
- > Professional services
- > Partnerships, integrations and alliances

Our solutions address the entire post-acute care continuum

Home-based care

Home health

Clinical episodic care delivered to people in the home

Hospice

Clinical care in a facility/home for people who are terminally ill

Private duty

Non-clinical daily living assistance in the home or a facility

Community and facility

Skilled nursing

Facility-based long- and short-term care and rehab

Senior living

Facility-based living with clinical support and daily living assistance

LPC (CCRC)

Campus-based community with full spectrum of care available

MatrixCare for skilled nursing

Experience an EHR that does more

An integrated EHR solution designed to help tackle your toughest challenges

- > Eliminate the need for multiple systems with one global solution
- > Guide clinicians at the point of care through clinical decision support
- > Assist caregivers in providing proactive care using early intervention insights
- > Reduce errors and save time with automated data entry
- > Enable insights and efficiency through intuitive dashboards and reporting tools
- > Improve cash flow with sophisticated revenue cycle management tools
- > Receive custom standardized documentation support through user-defined templates
- > Get staff trained and up and running quickly with dedicated customer support and implementation teams

A robust suite of technology solutions

Software that’s easy to use, and offers clinical, operational, and financial solutions that can help increase interoperability, streamline workflows, improve outcomes, and ensure the health of your business.

 Lead management / CRM	 Resident wellness coordination	 Financial excellence
 Personnel management	 Nutrition and dietary	 Time, attendance, scheduling
 Information exchange	 Resident/family engagement	 In- and outbound messaging
 Data and analytics	 Billing and revenue cycle management	 Artificial intelligence / machine learning

Benefits of the right EHR

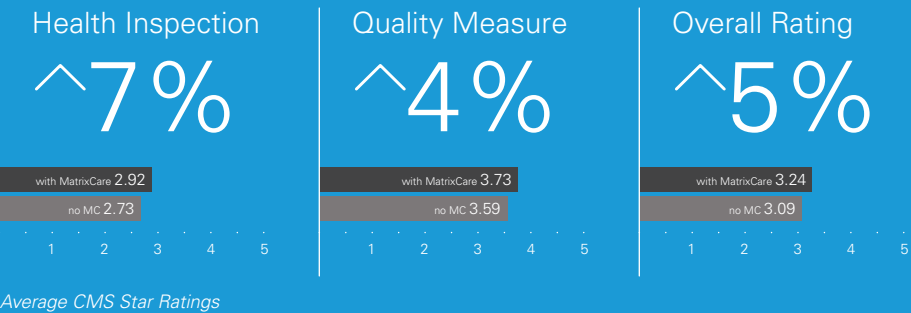

With MatrixCare, you get a comprehensive, fully-integrated software solution that features an advanced suite of robust tools.

Capable of doing more than a traditional EHR, you can experience improved efficiency across your entire organization so you and your team can focus on providing high-quality care to your patients and residents.

 Achieve greater operational efficiencies	 Built-in checks and balances
 Build relationships and increase referrals	 Less time to train and to document
 Scalability with your organization	 Cloud-based, fully-connected capabilities
 Secure internal and referral communication	 Interoperability and connected care
 Improved data and analytics	 Cost savings and improved ROI
 Faster chart turnaround	 Increased accuracy and compliance

Impact of MatrixCare

Nursing homes using MatrixCare demonstrated significantly higher CMS Five-star Quality ratings *

“We feel like this is a true partnership and we are working together to make each other stronger, in turn providing the best care possible for our residents.”

– Chris Lukezic, RN
Director of Clinical Informatics, Saber Healthcare Group
