

SENIOR LIVING SUITE

Advanced senior living capabilities for MatrixCare 360

Senior Living Suite is an add-on that brings advanced workflows like evaluations, service plans, and point-of-care documentation into MatrixCare 360. With everything in one platform, senior care teams can reduce manual work, improve visibility across care settings, help reduce the risk of billing errors, and ease the training burden on staff.

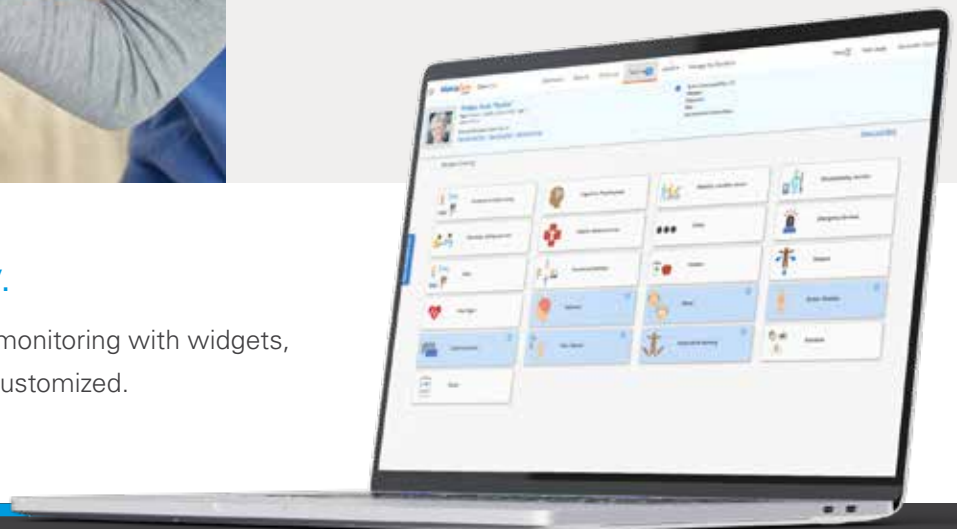

Multiple care settings shouldn't require multiple systems

- > **One platform across settings** helps reduce duplicate systems and documentation
- > **Faster evaluations and service plans**, typically completed in under 15 minutes
- > **Cleaner documentation** supports stronger billing and fewer missed charges
- > **Familiarity with MatrixCare 360** workflows eases the training burden
- > **Built for growth** means support for consolidation, CCRCs, and expansion

1 dashboard. 360 visibility.

The EHR dashboard provides real-time monitoring with widgets, keeping care coordinated and visibility customized.

Built exclusively for senior care

The Senior Living Suite of features delivers personalized, flexible, and financially aligned care with functionality built exclusively for assisted living, memory care, and independent living. Together, these features bring an integrated workflow that streamlines operations and helps improve care delivery.

Functional evaluations:

- > **Acuity-driven scoring:** Automatically assign care levels and points based on customizable observations forms
- > **Linked service plans:** Map observation responses directly to service plan tasks to help reduce manual work and support care alignment
- > **Flexible re-evaluations:** Effortlessly update service levels in response to changes in resident needs
- > **Integrated billing:** Link care levels and points to billing to help streamline charge capture, minimize errors, and maximize reimbursement

Service plans:

- > **Evaluation-driven:** Create personalized service plans directly from observation responses
- > **Customizable templates:** Quickly generate resident-specific service plans with flexible templates tailored to your community's needs
- > **Real-time point of care integration:** Seamlessly sync service plan tasks to the new work-to-zero to-do list in CareAssist
